This section includes brief definitions for keywords you will read throughout the guide Fiber Photometry: An imaging technique used to monitor neural activity of specifically-targeted cell populations Fiber photometry uses excitation light from implanted fiber optics

Introduction to Tensor Calculus for General Relativity

Our notation will not distinguish a $(2,0)$ tensor T from a $(2,1)$ tensor T , although a notational distinction could be made by placing marrows and ntildes over the symbol, or by appropriate use of dummy indices (Wald 1984) The scalar product is a tensor of rank $(1,1)$, which we will denote I and call the identity tensor:
